AI POLICY INDEX · FREE, NO LOGIN

What all 150 schools say about AI in applications, verbatim, with source URL and the date each was read (first read August 27, 2026, re-read September 8, 2026). 7 effectively prohibit AI · 36 publish guidance (some uses allowed, others not) · 5 publish commentary, no restriction · 102 publish nothing. ENFORCED, NOT JUST LISTED

Second Read's paid feedback tool (\$12 for 10 reviews; regional pricing for Brazil and Argentina) gives feedback on drafts students wrote. It never writes essays, and it turns off school-specific reviews for the 7 schools whose published policies effectively prohibit AI: Bates College, Brigham Young University, Brown University, Claremont McKenna College, Georgetown University, Villanova University, and Washington University in St. Louis. Blocked means blocked, even for paying users.
